1. The following is an examiner's statement of reasons for allowance: the amendment filed 12/06/2004 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest programmable frequency divider for dividing a signal from the SCO, first controller to provide the divide ratio to said programmable divider as called for in claims 5 and 13, temperature sensor to provide an indication of temperature to the digital controller and an analog to digital converter to convert the analog sensor output to the magnitude indication accepted by the digital controller as called for in claim 18, sensor includes a sense amplifier coupled to an analog to digital converter to provide a multi bit digital signal as called for in claim 19. Therefore, claims 5, 13, 18 and 19 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
